

Privacy and Data Protection Policy

Bizplan.one

Valid from: 3 June 2017

Collection and use of data

Bizplan.one collects the following data upon account creation:

- E-mail address
- User-selected password

We use Paypal for payment processing. Paypal's terms and conditions apply to collection, processing and data protection of information supplied to Paypal during payment.

Bizplan.one collects data about business strategies and concepts as part of the product's nature. The information is not processed for any Bizplan.one purposes other than delivering services directly to the user who has submitted the data.

Data may be shared with other Bizplan.one users when so requested by the data owner through the user interface. Control over who gets access to the data remains with the owner of the data being shared.

Security and protection of data

Bizplan.one only allows encrypted web traffic.

Only salted hashes based on a strong cipher suite are stored by Bizplan.one. It is not readable to anyone, including Bizplan.one administrators.

User's rights

You as a user can request specific information or require your account and data deleted by sending an e-mail to hakon@bizplan.one.
